# Great Rift Valley

**Location:** 140km north-west of Nairobi  
**Climate:** Hot and dry

A huge geological fault-line that stretches from Jordan, Middle East, and runs through Ethiopia, Kenya, Tanzania, Congo, Malawi, and ends near the coastal town of Solada in Mozambique, formed millions of years ago with its floor still below sea level. Bird watchers will love Lake Nakuru National Park, a shallow alkaline lake that seasonally hosts one of the greatest bird spectacles in the world in the form of millions of flamingoes that give the lake a pink shimmering glow.

Crowned by Mount Kilimanjaro, Africa's highest peak, the Amboseli National Parks is one of Kenya's most popular parks. Nature lovers can explore five different habitats here ranging from the dried-up bed of Lake Amboseli, wetlands with sulphur springs, the savannah and woodlands. They can also visit the local Maasai community who live around the park and experience their authentic culture.

# Ngorongoro

**Location:** West of the Great Rift Valley  
**Climate:** The Crater rim, over 2,200 metres high, touches swathes of clouds for most days of the year, with cool high altitude vapours that seem to bring a clean lightness to the air, and also a chill. These highlands wake up to a misty fog in most months, other than the high dry season during December.

The Ngorongoro Conservation is located west of the Great Rift Valley which runs from the Red Sea to Lake Nyasa in southern Tanzania and boasts the finest blend of landscapes, wildlife, people and archaeological sites in Africa. Traditional African pastoralists co-operate with Tanzania's government bodies to help preserve the natural resources of the area and to ensure a fantastic experience for visitors. Ngorongoro was an active volcano some eight million years ago whose cone collapsed leaving a crater. Its spectacular setting and abundance of wildlife combine to make it the 8th (eighth) wonder of the natural world. The crater rim is wooded with mountain forest vegetation. The crater is oval in shape, 300sq. Km in area. Most of the big five are seen along with an abundance of birds.

# Arusha

Location: North West  
Climate: Summer ranges from between 20°C to 30°C // Winter ranges from 15°C to 21°C

An attractive little town situated beneath the towering peaks of Mount Meru and Mount Kilimanjaro, Arusha is the gateway to Tanzania's northern wildlife area and is often the first port of call for travelers. Renowned as the safari capital of Tanzania, the town has numerous first-class restaurants, bars and markets and is the ideal place to spend a few relaxing days before embarking on a safari or attempting to scale Kilimanjaro. A picturesque little reserve situated near the town, Arusha National Park offers the perfect introduction to the world of safari, although it does not boast nearly the same variety of wildlife as the country's top nature reserves. Arusha's rural charm is amplified by the many beautiful coffee plantations that surround the town, many of them dating back to colonial times and offering tours of graceful plantation houses.

Located just a few hours' drive from the town of Arusha, Tarangire is a popular stop for safaris travelling through the northern circuit on their way to Ngorongoro and the Serengeti. # General Information

## ARRIVALS & DEPARTURES

The main ports of entry to East Africa are in Nairobi, Dar es Salaam, Entebbe and Kigali. There are daily flights into each of the main airports in these cities from London, Amsterdam, Zurich, Brussels, Dubai and Johannesburg.

Kenya	Jomo Kenyatta International Airport	Kenya Airways
Tanzania	Dar es Salaam International Airport or Kilimanjaro Airport	Air Tanzania / Precision Air
Uganda	Entebbe International Airport	Air Uganda
Rwanda	Kigali International Airport	Rwanda Air

## AIRPORT DEPARTURE TAX

International Airport departure tax equivalent to US\$ 40 per person is payable on departure from some International airports. As this varies from country to country, please check with us on the prevailing amounts payable prior to your flight departure if not already included in your ticket.

## VISA & IMMIGRATION

Most nationalities require visas to the East African countries and most can be attained at your point of entry. There are always countries that are exempt from visas or that need special clearance so we recommend you check on the going fee with your local embassy before travel.

## HEALTH

All travelers to East Africa are required to have Yellow Fever inoculations. This needs to be done at least 10 days before you leave home. Malaria is prevalent in all the East African countries. Please contact your doctor for advice before travel as most malaria tablets need to be taken up to a week before travel.

## WHAT TO BRING

You should pack the minimum, since it is fairly easy to get your laundry done. Cotton is best when it's hot. You should take short and long sleeve shirts (to protect yourself against mosquito bites), slacks and shorts. You may need a jacket or sweater for cooler evenings or if you will spend any time in the highlands. It can get chilly in Nairobi at night, and it is definitely nippy on the rim of Ngorongoro Crater. Naturally if you are going to do any mountain climbing you need the appropriate equipment. Don't think that because Mt Kilimanjaro is near the equator, it will be warm there! In terms of photography, in order to take good wildlife pictures you will need a SLR camera and a 200 mm lens at a minimum. A wild angle lens is also nice to have for panoramic shots. If you are going to have two lenses, I recommend

having a camera body for each, since there is dust everywhere, particularly in Tanzania, and the wildlife tends not to wait for you to switch your lens. You should take plenty of film with you before you leave (about a roll a day), especially if you want high quality film. Film is available throughout the country, but only your basic Kodak Gold and only in the main cities. Additionally, you do not know anything about the conditions it's been stored in.

## BAGGAGE

Baggage space on safari is restricted to one medium suitcase per person, plus hand baggage (private safaris where there are less than 7 persons in the vehicle are not subject to this restriction). Small duffel bags are however comfortable to travel with. A baggage weight restriction of 15 kg per person applies on air safaris. Where very small aircraft are used this may be reduced to 10kg.

## CURRENCY

While the East African countries all have their own currencies, most tourist attractions are priced in US Dollars. Our recommendation is to take US Dollars with you for spending money and visa costs and change small amounts into local currency if need be. The official currency is the Kenyan/Tanzania and Uganda is shillings, Franc in Rwanda although United States Dollar is also accepted.

## BANKING

In most of the East African countries, banks are open from 0900hrs to 1500hrs Monday to Friday. Some branches open on Saturdays from 0900hrs to 1200hrs. Many banks are now equipped with 24-hour ATM machines.

## HOTELS & ACCOMMODATION

Accommodations have been carefully selected in each area and it provides the most friendly and pleasant surroundings to match the general atmosphere, which we feel is such an important part of our tour. In East Africa, we have accommodation that can cater for any possible budget, taste, interest or preference. Hotels, hostels, luxury tented camps, guesthouses, resorts, campsites, backpacker lodges, village home-stays and more can be found.

## CREDIT CARDS

VISA and MASTERCARD are widely accepted for tourist services across East Africa. There's usually a 5% mark-up on top of the price as establishments are charged a fixed percentage of their transactions.

## TIME

The four countries lie in a zone which is called East Africa Time, or EAT. The zone is three hours ahead of UTC (UTC+3), which is the same as Moscow Time, and also the same as Eastern European Summer Time.

## OPENING HOURS AND SHOpping

Major stores, tourist services, offices and museums open from 8.00 am to 5.00 pm in large towns though offices often break for lunch. In rural areas and out in the bush small shops can be open at almost any hour. Souvenirs to take back home can include wood and soap stone sculptures and carvings, ciondos (sisal baskets), beadwork and tribal regalia, masks, textiles and gemstones set in unique jewellery pieces.

## TIPPING AND PORTERAGE

Although hotels and lodges include a service charge, it is customary to tip porters, waiters, taxi drivers and safari drivers/guides.

## DRINKING WATER

Drinking water from the tap must be considered risky. Hotels and lodges usually furnish safe water in a thermos flask in guest rooms. Bottled mineral water is available in every hotel and supermarkets.

## FLYING DOCTORS SOCIETY

Membership of the Flying Doctors Society is strongly recommended. In event of accident or sickness while on safari, anywhere in East Africa within a maximum of 1,000 km's of Nairobi the society will fly patients by air ambulance to Nairobi, for admittance to hospital.

## LANGUAGE

**Kenya** – Kiswahili is the lingua franca while English is the official language. In addition, most Kenyan tribes have their own language.  
**Tanzania** – Swahili, the language spoken by the vast majority of Tanzanians, is the most widely understood language in Africa after Arabic.  
**Uganda** – English is the official language while Swahili is the second official language.  
**Rwanda** – The official languages in Rwanda are Kinya-rwanda, French and English.

## SECURITY

Normal precautions as in any other destination worldwide should be taken. Visitors are advised not to leave cash and valuables in their hotel rooms but to make use of safe deposit boxes and safes. One should never carry large sums in cash and women should keep a tight grip on handbags in crowds or busy streets. Jewelry snatching is quite common in city streets. As in all major cities walking alone or in small groups at night should be considered a hazard and avoided. Reliable taxis are available at all the principal hotels. Taking photographs at airports, near military installations, of policeman, the president, the national flag, the State House, state lodges, soldiers, prisons and prisoners etc., is prohibited. Before photographing local people, permission should be obtained and a fixed price agreed. Seek the assistance of your driver/guide in this matter.

## COMMUNICATION

**Post** – East African countries have a good postal service for both local and international post. Many shops in tourist lodges and hotels sell stamps  
**Telecommunications/Cell Phones** – We have mobile networks in most areas of East Africa - You can roam on the various networks and local line sim cards are easy to obtain in any country. Costs for telephone calls from hotels worldwide are generally high so please check the rate before making any calls from your hotels/lodges.

## INTERNET

All the Member states of East Africa have good internet service providers. Many hotels and lodges offer email and internet services. In most towns, there are plenty of private business centres and cyber - cafes offering email and internet access.

## ELECTRICITY

Our grid is based on 240Volts and 3pin socket British Style. Note that in some areas especially on safari in Lodges/Camps electricity supplies may be operated at certain times during the day and at night may be switched off after 11pm or midnight as these supplies are through using generators.

## CUISINE

The multicultural nature of the population is reflected in the international cuisine and any dietary needs are easily accommodated.
